Inventory						
Culls and Deaths (previous 12 months)						
# of Cattle Added in the Past 12 months						
Area of operation responsible for the major source or risk and/or spread of Johne's						

CHECK ALL BOXES THAT APPLY

Calving Area:

- ☐ Use individual calving pens that are cleaned after each use.
- ☐ Keep calving area clean and dry.
- ☐ Keep adult cow manure away from calves.
- ☐ Do not use calving pens for sick cows or cows that are JD test positive.
- ☐ Remove calves from calving area immediately after they are born.
- ☐ Do not allow calves to nurse.
- ☐ Collect colostrum under sanitary conditions.

Pre-weaned Calves:

- ☐ Do not feed pooled colostrum or milk.
- ☐ Pasteurize milk before feeding to calves.
- ☐ Prevent contact with adult cows or cow manure.
- ☐ Prevent contact with cows that are JD test positive.
- ☐ Provide adequate pasture space.
- ☐ Wear clean coveralls and boots and use clean equipment when working with or feeding calves.

Weaned calves and bred heifers:

- ☐ Minimize contact with adult cows or cow manure.
- ☐ Remove cow manure from all equipment before using in heifer areas.
- ☐ Do not feed heifers refused (weigh-back) feed from cows.
- ☐ Do not allow heifers to share water, feed, housing, feed bunks or pasture with cows.

Adult cows and bulls:

- ☐ Avoid spreading manure on hay ground or pasture.
- ☐ Avoid manure contamination of feed storage areas or feeding equipment.
- ☐ Isolate or cull cows that are JD test positive.

Replacements:

- ☐ Management herds - Purchase replacements from herds with known negative JD status.
- ☐ Status herds - Purchase replacements according to guidelines for negative Status Herds.
