INDIVIDUAL APPLICATION AND REQUIREMENTS FOR THE SALE OF VETERINARY VIRULENT PRODUCTS

NORTH DAKOTA DEPARTMENT OF AGRICULTURE
STATE BOARD OF ANIMAL HEALTH
SFN 50705 (8-2010)

Inasmuch as it is the obligation of the Board of Animal Health to protect the North Dakota producers of livestock and poultry and the health and well being of the animals in the state, the following requirements must be adhered to:

1. The following vaccines are restricted and not to be sold. This list may be modified from time to time as directed by the State Veterinarian.

All brucella vaccines	All rabies vaccines
All pseudorabies vaccines	All anthrax vaccines
Contagious ecthyma (modified live)	Erysipelas (live cultures)

2. Four hours of training must be completed on an annual basis by the applicant and employees pertaining to the use of virulent veterinary vaccines. Certification will be supplied by principal biological suppliers or other qualified persons as determined by the Board of Animal Health.
3. Live germs, cultures or viruses sold or offered for sale in the State of North Dakota for use in animals shall be kept in a dark place at a temperature of not more than 45 degrees and not less than 35 degrees, until such time as they are sold, and shall not be sold after their expiration date.
4. Live germs, cultures or viruses and any biologic sold or offered for sale within the State of North Dakota for use in animals or poultry, shall be sold or offered for sale in their original containers.
5. Retail purchases of live germs, cultures or viruses shall be non-returnable.

"On the farm" sales shall comply with the above requirements.
