## 1) FUNDING OPPORTUNITY DESCRIPTION

### a) LEGISLATIVE AUTHORITY

The National Organic Certification Cost Share program (NOCCSP) is authorized under section 10606(d)(1) of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 6523(d)), as amended by section 10004(c) of the Agriculture Act of 2014 (2014 Farm Bill; Pub. L. 113–79) and Section 10105 of the Agricultural Improvement Act of 2018 (2018 Farm Bill, Pub. L. 115-334). Under this authority, Congress authorizes USDA to provide organic certification cost share assistance to producers and handlers of agricultural products who are obtaining certification under the National Organic Program. These producers and handlers may be located within the 50 United States, the District of Columbia, and five U.S. Territories including the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

FSA administers the Organic Certification Cost Share Program (OCCSP) using relevant sections of the Organic Foods Production Act of 1990 and the Uniform Grant Guidance, 2 CFR 200. FSA awards OCCSP funds to eligible State Agencies, which operate as a pass-through system, by accepting and approving applications from producers and handlers so that State Agencies can issue reimbursements to organic operations.

### b) PURPOSE

The purpose of the OCCSP is to defray the costs of receiving and maintaining organic certification under the National Organic Program.
